

2009 Delta Course Objectives

Upon completion of the Delta Program, workshop participants will be able to:

- 1) Define watershed.
- 2) List dominant fauna and flora of the Mobile-Tensaw Delta and describe ways they adapt to survive their environment.
- 3) List and describe the major habitats of the Delta.
- 4) Describe a small number of invasive species living in the Mobile-Tensaw Delta and how they have affected the habitat.
- 5) Discuss interactions between humans and the Delta.
- 6) Discuss characteristics of the Mississippian Indians at Bottle Creek.
- 7) Describe a variety of activities and strategies to teach students about the habitats of the Mobile-Tensaw Delta.
